Boston 15, Massachusetts

Dear Bernie:

To yours of April 2.

We were sorry to miss you here, but I can well understand.

I would like to accept your very cordial (thereby irresistible) invitation for the Mueller lectureship: I don't see how I can put you off much longer (as if I wanted to). Can we possibly put off scheduling the date until late this summer? I should know by then when the least disastrous time will be.

Are you going to Europe this summer? We are planning the Royumont-Stockholm-Montreal circuit.

Yours,

JL/sw
